Mr. Blewett also advised that at present he is employed by the Provincial Welfare Department in Lethbridge, but he desires to obtain a position with the local municipality. Councillors were interested in the application and instructed the secretary-treasurer to write to Mr. Blewett advising him that while there is no opening at the present time, the County of Vulcan might be seeking such a person for a position in the future and at that time we would request an interview and further discussion respecting his position.

The letter solicited the support of the County of Vulcan to this proposal. Councillors discussed this and it was moved and carried that a letter be sent to the Minister of Highways endorsing the County of Wheatland proposal.

Norman A. Bradley of Lethbridge, who is well known to the Vulcan County Councillors through his previous position as district engineer for the province, stationed at Lethbridge, was present and interviewed the council and gave information in respect to the paving project which is being carried on at the present time by the Municipal District of Willow Creek. The councillors were very interested in the information that was supplied and although no action was taken to implement any policy, Mr. Bradley was advised that the county is considering embarking on a paving policy in the very near future and it was quite possible that they might solicit his services in looking after this work.

Mr. Haga, Chairman of the Municipal Committee, reported to the council in respect to an interview he had had together with the secretary-treasurer with Mrs. Gertrude B. Scott, owner of small parts of land which the county had been endeavoring to obtain for a roadway for some time and Mrs. Scott had agreed to the road diversion and signed the attached agreement. It was moved and carried that the County of Vulcan formally accept the terms of agreement as entered into as Mrs. Scott had agreed to on July 10, 1964.

By-Law No. 441, a by-law of the County of Vulcan No. 2 to provide for the regulation and control over vehicle traffic at certain road intersections within the county by the jurisdiction of stop and yield signs, was read and passed the required three times.

The regular July meeting of the School Committee of the County of Vulcan No. 2 was held on Tuesday, July 21. The committee chairman, J. M. McKay presided and committee members Frank Thurber, A. The letter explained the three methods of fixing the school: (1) To completely rebuild the chimney; (2) To replace the chimney with a pre-fabricated job for the sum of \$2,272; (3) To repair the present chimney by welding and bracing for the sum of \$910. After discussing the recommendations and the prices quoted, the committee felt that a pre-fabricated chimney would be suitable and it was moved and carried that the pre-fabricated chimney at \$2,272 be authorized.

A quotation from Meldon Roofing of Lethbridge to renew the roof on the existing part of the High School for the sum of \$3950 was read. After receiving the report of Stevenson & Associates, Architects, in respect to the roof on the existing building and considering the recommendation that the roof should be renewed, it was moved and carried that the committee authorize a new roof on the existing building and that the work be done under the supervision and specifications of the architect.

Mr. Hawkesworth reported to the committee that he had been in communication with the Town Council in respect to speeding in the school zone and pointed out that a number of incidents had occurred which should be corrected by the local police officers. The Town Council had assured Mr. Hawkesworth that speeding regulations in the neighborhood of the school would be enforced.

L. R. Edwards, Architect Supervisor on the Vulcan High School job was present and discussed the details in respect to the contract and thought a good deal of the building would be ready for school opening on Sept. 1.

Weather Continues Dry; Harvest Coming Up Fast

No rain has fallen in the past week to bring an end to the month-long dry spell and harvest is rapidly approaching as the hot sun and dry winds hasten the ripening of crops.

Winter wheat and fall rye are expected to give good yields, but spring wheat and other crops, lacking moisture at the crucial filling stage, will not measure up to last year's crop.

Best yields in spring crops will come from those sown early in the season.

Descendents Of Pioneer Brothers Hold Reunion

Seventy-one signed the guest book when a family reunion of the descendants and relatives of Robert, John and Thomas Love, pioneer settlers in this part of southern Alberta, was held at the High River park on July 8.

The 10 children of John Love were all present. It was the first time in 15 years that they had all been together and there was much reminiscing and many tales told of childhood days.

The oldest of the four brothers and six sisters in this family is Robert of Turner Valley and the others are Edward of Calgary; Albert Scott of Kelowna, B.C.; Edith Steiner of Calgary; Clara Love of Vulcan; Eva Brown of Dawson Creek, B.C.; Ina Nimz of Red Deer; Norman of Rutland, B.C.; Hilda Stier of Blackie and Lena Brown of Vulcan. It was an extra special occasion for Lena, the youngest member of the family, as it was also her birthday.

The three remaining members of the Robert Love family were all present in the persons of Clifford, Alva and Willard Love, all of Vulcan.

Only two of the children of the late Thomas Love, Ivo Love of Vulcan and Cora Hymman of Calgary, were able to attend. The other two members of the family, who were unable to be present, are Howard Love of Calgary and Una Crews of Canoe, B.C.

Other members of the Love clan present for the gathering included the Almer Love family of Canmore; the John Sousa family of Esquimalt, B.C.; Mrs. W. Wendt and family of Grande Prairie; Mr. and Mrs. Allan Study of Kathryn; and Mr. and Mrs. Wayne Stier, Mrs. Jim Hymman and family and Mrs. R. McAskill and family, all of Calgary.

The three Love brothers came from Manitoba and Ontario to set-

tle in the Vulcan district. John Love was the first here, homesteading in the Red Cross district north of Vulcan in 1905, and he was followed in 1906 by Thomas Love, who also homesteaded in the same district. They had both previously lived in Manitoba. In 1912 the third brother, Robert, came west from Ontario and bought land in the same district where his brothers were farming.

Robert died in 1931 and Tom and John died in the 1940's. Another reunion of the descendants of these three pioneers of the Vulcan district is planned for Canada's centennial year of 1967.

Hit Flowing Well On Nelson Bros. Pasture Lease

A steady supply of good water for cattle is a valuable asset at any time, so the Nelson Bros. of Milo are understandably happy about a flowing well recently brought into production on their six-section pasture lease east of Milo.

Some time ago a seismograph crew worked that area and a trickle of water has been coming from one of the holes they drilled. With the lack of water on their lease becoming a real problem, the Nelsons hired well driller J. R. Maughan of Lethbridge to sink a well at the spot where the seismograph hole was located.

Mr. Maughan and his helper, Pete Coyne, brought in their outfit, started drilling, and at a depth of 92 feet brought in an artesian well that flows a steady 18 gallons a minute under its own pressure. Outside of a slight taste of sulphur the water appears to be of good quality and the water shortage on the pasture lease is now considerably eased.

Services Held Wednesday For Mrs. Lucy Schuler

Mrs. Lucy Schuler, aged 83, of Vulcan, died on Saturday, Aug. 1, 1964.

Surviving are one daughter, Mrs. Margaret Hanna, Vulcan; four sons, Fred of Vulcan, Jack of Vancouver, Carl of Honolulu, Hawaii, and Peter, Vulcan; 28 grandchildren and 36 great-grandchildren. She was predeceased by her husband, Charles, and one daughter, Lucy, in 1952.

Services were held at the Vulcan United Church on Wednesday, Aug. 5, at 2:00 p.m., conducted by the Rev. Wellington Dormer. Pall bearers were Jim McNiven, Arthur Cutforth, George Fulton, Charles Fulton, Ronald Dunham and Glen Dahl. Interment was in the Vulcan cemetery.

**CARE IN HARVESTING
MALTING BARLEY**

Mechanical damage to barley, during harvesting, frequently results in peeled kernels which are undesirable for malting purposes.

It will pay, therefore, to take every precaution to see that barley intended for malting is harvested at the right stage, is properly swathed so as to permit complete drying and maturing, and is carefully threshed so as to avoid the peeling and breaking of kernels.
